The Norwegian Academy of Science and Letters has published several proceedings from symposia on geomedicine. Editor of all these books are prof Jul Låg:

Geomedical aspects in present and future research, 1980
Geomedical research in relation to geochemical registrations, 1984
Geomedical consequences of chemical composition of freshwater, 1987
Commercial fertilizers and geomedical problems, 1987
Health problems in connection with radiation from radioactive matter in fertilizers, soils and rocks, 1988
Excess and deficiency of trace elements in relation to human and animal health in Arctic and Subarctic regions, 1990
Human and animal health in relation to circulation processes of selenium and cadmium” 1991
Chemical climatology and geomedical problems, 1992
Geomedical problems related to aluminium, iron and manganese, 1994
Chemical data as a basis of geomedical investigations, 1996
Some geomedical consequences of nitrogen circulation processes, 1997
Geomedical problems in developing countries, 2000

NATURAL ionizing radiation and health" 2001 (editor Björn Bölviken)
